PATIENT CARE EXPANSION UPDATE

Less Wait, Less Travel, More Access to Exceptional Healthcare

December 15, 2023 Update

Design & Space Planning Updates

- On December 6, the Pullman Regional Hospital Board of Commissioners unanimously approved the Hospital Remodel Phase of the Patient Care Expansion Project!
- Project update presentations will be scheduled with each department/clinic, co-presented by department directors and Matt.
- Brainstorming sessions will be scheduled prior to small group work sessions with employees.
- Starting in Jan., large and small group work sessions with employees, architect partners and our contractor will guide decisions for detailed floorplans. **This process is designed to be inclusive, transparent, and include all input and considerations, provide project scope and budget considerations.**

Funding

- Our A1 “graded” bond did really well on the market, meaning we can expect a good rate.
- The Foundation is developing fundraising plans over the next 3-5 years to support the expansion project with donations and grants.

Contractor & Project Management

- Our project application for the WA State Board has been approved!
- The request for qualifications from interested contractors has started.
