Pasadena, CA

**Medical School:** University of Oklahoma Health Sciences Center  
Oklahoma City, OK

**Residency:** Seattle Children's Hospital  
Seattle, WA

---

**Certifications:** American Board of Pediatrics

*"I cherish guiding children and families through their growth journey, from infancy to adulthood. My commitment as a doctor is providing evidence-based care and collaborating with families."*

## Why a Pediatrician?

Everything changes the moment you become a parent. It's an incredible privilege to be a part of that and to watch families grow year after year. I can't imagine a more rewarding profession helping kids to grow healthy, mature, and strong!

## Personal Interests?

I enjoy exploring the wonderful outdoors with my family. Personally, I still find writing software to be a fun challenge, and I'm always looking for ways to use technology to make the world better. I also play guitar and enjoy good food.
